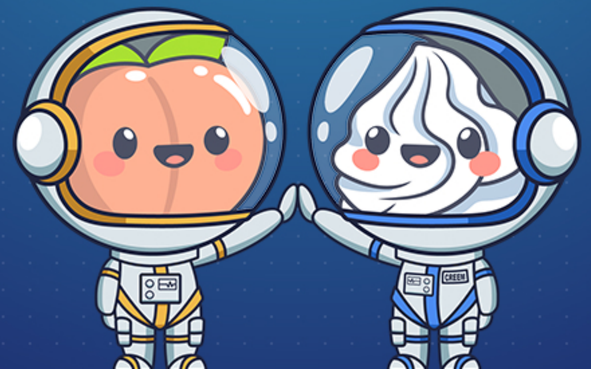
INTRODUCTION

The Peech project is a fun and interactive memecoin with a utility. Started as just a basic memecoin, Peech is now developing into a whole ecosystem that aims to deliver.

Weekly auto lotteries, auto burns, buybacks and more, our tokens alone offer a reason to hold. Soon our Peech dapp will be available which will allow users to compete in a weekly trivia gameshow app, hosted by different celebrities.

Truly a diamond in the rough, the Peech project will be classed as one of the meme coins the serves a purpose. Peech , Creem & Token C (name to be determined) will complete the ecosystem with all three tokens serving a purpose in the gameshow app.



TOKENOMICS

Truly a diamond in the rough, the Peech project will be classed as one of the meme coins the serves a purpose. Peech , Creem & Token C (name to be determined) will complete the ecosystem with all three tokens serving a purpose in the gameshow app.

CREEM Allocations

15% Pre Sale
20% Liquidity
5% Team tokens (Locked for 1 month)
0.3% PEECH holder airdrop
59.7% Burn

CREEM REWARDS

There is a sustaible ETH lottery that will take place every Friday. The system is sustainable as the 4% tax is staked on high APR% / low risk platforms with the weekly profit being utilized for the weekly lottery. Every Friday the profit from staking is swapped into ETH and sent to the contract. From there the contract automatically randomly selects the winners.

To be eligible for the lottery, one needs to hold a minimum of $100 USD of CREEM tokens, the calculation is done via the smart contract.

There is a tiered system so holding more CREEM will earn you more ETH.

$100 USD of CREEM = win up to 0.10 ETH
$500 USD of CREEM = win up to 0.50 ETH
$1000 USD of CREEM = win up to 1 ETH
$2000 USD of CREEM = win up to 2 ETH

There will be multiple winners if the lottery is over 2 ETH or if the lottery is over the amount a tiered holder is eligible to win.

GIVEAWAYS

Peech giveaways are held every Sunday sometimes live on our Instagram channel, YouTube channel or just posted results if the stream cannot take place. Randomization is done using Random.org and is a verifiable randomizer. The amount given away is also sent to the burn wallet to be burned at the end of each month, along with a percentage for charity donations.

PEECH APP

The PEECH gameshow Dapp is an interactive gameshow where people wil be able to join, challenge others and participate in the weekly gameshow hosted by different celebrities. Holding more PEECH will allow you to win more ETH in the weekly gameshow, while holding CREEM will allow you to challenge others to VIP games. By staking PEECH & CREEM together you will be able to earn token C which will be used for perks to help you win in the weekly gameshow. Token C will not be tradable on the market and can only be obtained by staking PEECH & CREEM or purchasing in the app.
